Sanitaryware and Complementary Products page 86

Bathroom Furniture page 356

Faucets page 715, Bathroom Accessories page 852

Created by Pentagon Design for Vitra, Nest Trendy is a highly modular family bathroom equally attentive to the needs and desires of every member of the family.

Nest Trendy offers 'family-sized comfort' with a wealth of features from the child step or night lights to the laundry cabinet or easy-to-reach storage areas.

The heat gauge of the digital bathroom mixer displays water temperature with great accuracy for extra comfort and safety. External power source is not required as the digital display is powered by the generator. The display also allows the user to keep track of water flow and total water used, enabling more efficient savings.

Sanitaryware and Complementary Products page 88
 Bathroom Furniture page 366

The new Vitra series Nest adds pleasure and comfort to the family bathroom experience. With a wide range of functional products designed along new generation modularity, Nest serves the needs of every member of the family.

Istanbul

Bathroom Furniture page 236

Faucets page 672, Bathroom Accessories page 846

A new range of bathroom furniture with sculpted contours are the latest addition to award-winning Istanbul series created by Ross Lovegrove for Vitra. Mineralcast washbasins are perfectly complemented by the highly functional and ergonomic cabinets and the new Istanbul faucets with strikingly slim and natural forms. Large mirror with fully integrated magnifier and concealed LED lights provides convenience in style. The furniture is available in glossy white, glossy burgundy and glossy olive green.

Bathroom Furniture page 316

VitrA's mineralcast technology has revolutionized washbasin design, making it possible to create slender shapes with sharper outlines. Visually stunning mineralcast forms accentuate the pure aesthetics of the furniture. System Infit vanity washbasin with integrated cabinet is an elegant centerpiece for the modern bathroom.

METROPOLE

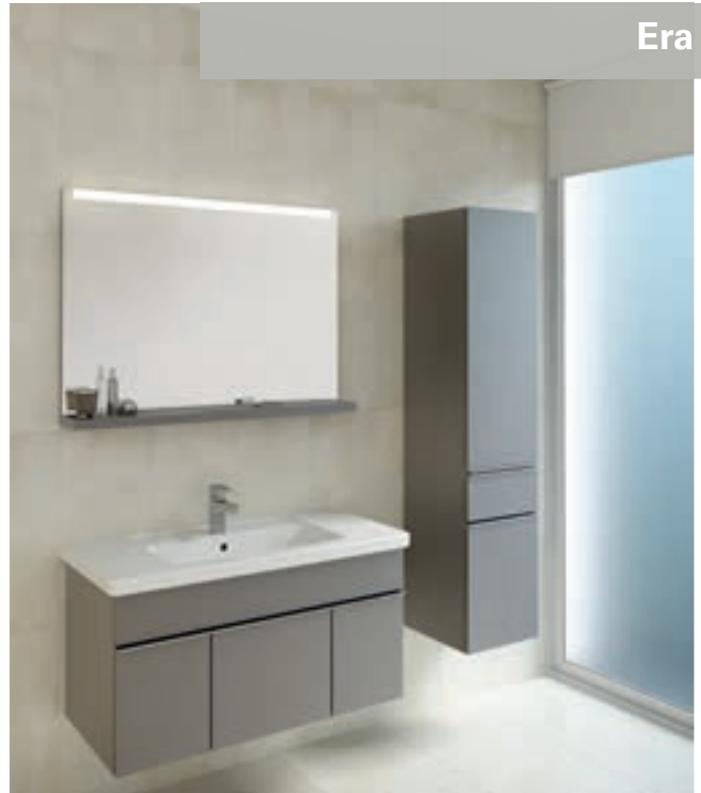

Sanitaryware and Complementary Products page 79

Created by NOA Design Group, Metropole is a complete bathroom series for projects designed with the urban future in mind – from hotels and malls to office or residential buildings. The innovative ideas developed for Metropole provide professionals with a key to a wealth of new spatial solutions.

Serial
Catalog

Era Series is comprised of washbasin units and tall units providing functional storage areas in a variety of sizes suitable for different needs. Every family member can enjoy the luxury of personal space with the illuminated cabinets of the series featuring adjustable shelves. Era distinguishes with its striking colors metallic mink and grey oak.

Era

Bathroom Furniture page 378

Modernistic and functional with a sleek handleless design, Step bathroom furniture series offers great value for money. 65 cm and 85 cm wasbasin units create expansive storage space, while the teak patterned water-resistant thermoform finish tastefully complements any bathroom.

Series

Bathroom Furniture page 398

Mineralcasting technology by Vitra

With mineralcast technology, Vitra introduces a brand new washbasin material with superior attributes elevating bathroom quality and aesthetics to a whole new level. Memoria washbasins designed by Christophe Pillet explore previously unimaginable possibilities in form and outline.

VitrA Memoria washbasins stand out for their fascinating forms featuring radically slimmer rims and sharper lines exclusive to the new mineralcast technology. They can easily be repaired if necessary, and will retain the same bright white throughout the product's lifetime. Mineralcast washbasins without overflow syphons can be used with countertop or built-in faucets.

Mineralcast washbasins are available in comfortably wide 80 cm or compact 40 cm sizes.

METROPOLE INTEGRA

Integra concealed overflow syphon adds to the visual integrity of the Metropole washbasin.

The Metropole washbasin is a smart solution with its Integra concealed overflow syphon. The neat space saving design of the syphon provides maximum space underneath the washbasin while the concealed overflow channel provides integrated look inside the bowl.

The curved bowl prevents dirt build up on the surface; residues will easily wash down the drain.

When used on a countertop, the space saving syphon leaves more room in the cabinet for storage space. It also offers considerably easier access to wheelchair users.

Serial
Catalog

VitrAfresh

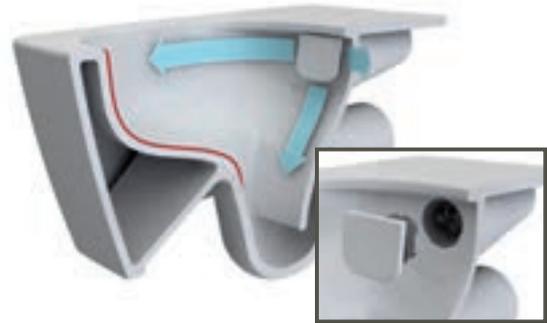

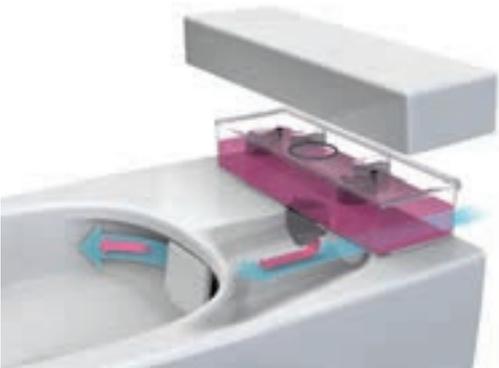

VitrAflush - Rimless WC

VitrAfresh feature consists of a tank on top of the WC pan. The tank dispenses liquid cleaner every time the WC is used, cleaning the pan thoroughly for maximum hygiene while refreshing the air with a pleasant fragrance.

VitrAflush offers superior hygiene with a design that eliminates rims or hard to reach channels where germs could proliferate. The ceramic flushing mechanism cover can be easily removed for cleaning.

Nest Trendy Accessories

Nest Trendy toothbrush holder is superbly hygienic and dishwasher safe with its polycarbonate inner chamber. Soft-contoured accessories and the silicon-lidded toilet brush are comfortable to use without having to worry about leaving scratch marks on different surfaces.

Somnia Accessories

Somnia series accessories are fitted with double-sided adhesive strips which allow them to be easily mounted without drilling the wall. Somnia strips are long lasting, with proven efficiency on glass or tile surfaces. Unlike foam strips, Somnia can be removed without a trace.

 **Stickmaster**

by **VitrA**

**Softcube
Heat - Integrated Tall Unit**

Combining storage space with heating function, this tall cabinet helps dry wet towels quickly and neatly. The elegant and practical Softcube adds warmth and style to the bathroom.

Concealed Cistern Panels with Photocell Controlled and Metal Push-button The new models with Photocell Controlled and Metal Push-button are both compatible with standard reservoirs. The metal push-button is made from solid and abrasion-resistant stainless steel which can also be PVD coated if desired. 3/6 an 2.5/4 L double action options save water. The photocell panel developed with the latest sensor technology also enables manual operation in case of power failure with its specially designed button.

VitrA AquaMax Shower Systems

These remarkable showerheads are equipped with perlator technology, aerating water to provide a more intense sensation while using less water. Water saving VitrA AquaMax products fully meet Green Building certification criteria.

One of VitrA most innovative technical achievements recently is the built-in mixer concealed part standardization which eliminates the urgency to choose mixers during construction. Faucets can be easily installed or changed whenever desired, without having to drill the wall. The system is noise-free, and visually superior due to the absence of visible screws. Minibox built-in bath/shower and shower mixer is the most compact model anywhere.

**Built-in
Bath / Shower mixer**

**Built-in
Shower mixer**

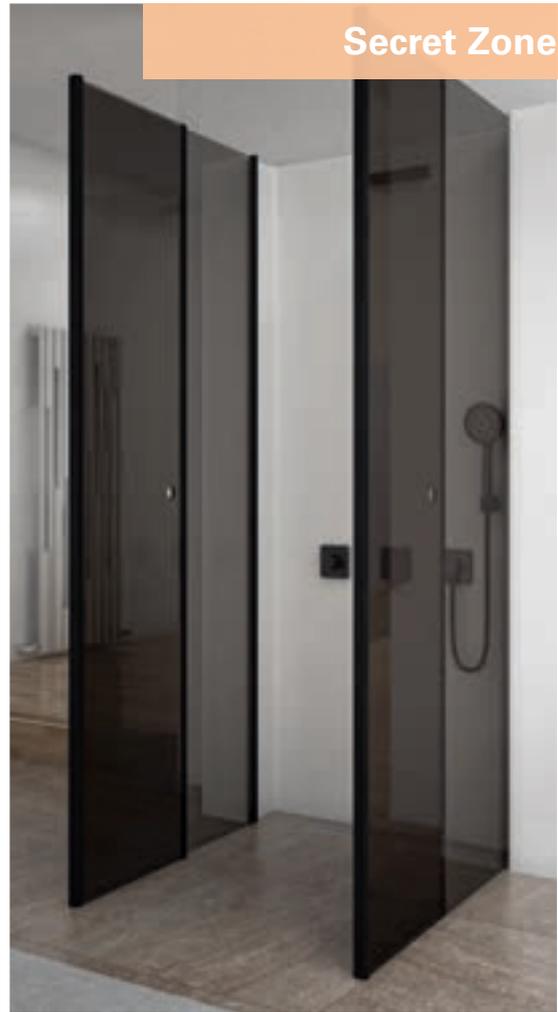

Roomy

Consisting of cabin, faucet and shower tray, the affordable Roomy offers convenience together with shower pleasure. Exceptionally comfortable for elderly users as well as children, the wide seating unit doubles as a spacious storage area with a deep drawer. Roomy is a compact solution with its shower column and thermostatic mixer.

The innovatively designed Secret Zone is a compact shower unit that will change the face of the contemporary bathroom. The glass cabin easily folds back to the wall when not in use, freeing up space for daily activities.

Mondo Wall-hung WC Pan

Easy installation, extra hygiene: Mondo

Installation made a lot easier with the innovative Mondo WC by Vitra. The wall-hung WC pan is designed with a concealed mounting system that joins it to the wall seamlessly. It is easily cleaned thanks to its sleek and smooth surfaces. The soft-closing seat provides silent and safe operation.

Two New Seats for S20

Safer and more comfortable: New S20 toilet seat is designed for persons with special needs. Functional with the side wedges that ensure steady seating; ergonomic with its sloping design; and reliable thanks to the durable metal bar reinforcing the hinges.

Contemporary, stylish and high quality: The new Vitra S20 basic toilet seat offers good value for money with its refined aesthetics and comfortable contours.

Sheer and discreet Zest shower cabin will be a perfect fit in any bathroom decor, classic or modern.

Istanbul Colored Accessories

Another 2013 novelty: Colored accessories complementing the black and white faucet series of the award winning İstanbul collection created by Ross Lovegrove.

Juno made with Swarovski Elements Accessories

Swarovski sparkles for bathroom glamour... Exquisite swarovski crystals accentuate the stunning elegance of classical forms.

Trio Accessories

Three essential bathroom accessories brought together in the tasteful Trio set. The restrained aesthetics of Trio will easily blend in any bathroom decor.

Icon Guide

Sanitaryware and Complementary Products, Bathroom Furniture Icon Guide

Water saving

Developed by VitrA with special bowl structures and low-flow internal mechanisms, the 2,5/4 lt water conserving WCs provide efficient flushing with less water and are certified for lowest water consumption by EU standards. When used together with VitrA concealed cisterns, these WCs can reduce water consumption by up to 70 %.

VitrA Clean

Limescale is persistent in most bathrooms. VitrA Clean technology is a special double-glazing process that makes washbasins, WC pans, urinals and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

VitrA Hygiene

VitrA Hygiene is a unique ceramic technology developed by VitrA to prevent the proliferation of bacteria and other harmful organisms in the moist bathroom environment. From washbasins to WC pans, bidets or urinals, ceramic sanitaryware produced with VitrA Hygiene technology offer superior hygiene to users. Extremely hard-wearing, VitrA Hygiene glaze will last the life-time of any product it has been applied to.

Easy Installation

Easy and quick installation with innovative applications.

Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

Natural veneer

Furniture surfaces are genuine wood veneer.

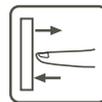

Integral lighting

Special lighting system integrated behind the mirror provides a stylish and functional solution.

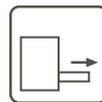

Soft-closing

The gently slowed movement of drawers, doors and lids ensure silent operation and enhance safety for children or elderly users.

Push to open

Designed without handles for an uncluttered symmetrical look, furniture doors and drawers are easily opened with a gentle push.

Full extension

Full extension drawers offer ease of use and optimum utilization of storage space.

Heating function

Turned on or off with a button to one side. The matt metal piece will heat to a maximum of 55°C.

Sensor

Eliminates lighting switches to provide a smarter look, turning lights on when approached or when lightly touched.

Faucets and Accessories Icon Guide

Maximum water conservation

Special cartridge of the faucets allows the user to set an upper limit on water flow. While standard cartridges yield 20 lt/min flow rate at 3 bar pressure, the special heat and flow rate adjustable cartridge can be set to a2 lt/min flow rate under the same conditions to save water by up to 90 %.

Maximum energy conservation

The grey band on the cartridge can be used to set an upper limit on water temperature, saving energy by avoiding unnecessary heating.

Lime-free

The specially designed silicon perlator discharges any lime build-up at the spout with a single touch.

Self-cleaning perlator

Prevents blockage for years on end by automatically discharging limescale and deposits up to 0,7 mm in size. Perlator doesn't need to be removed for cleaning. Ensures smooth water flow even under adverse conditions.

Stickmaster

Special double-sided acrylic strip fixes products firmly in place without having to drill the wall for long durations.

310-2210, 310-2220,
311-2210, 311-2220

Electronic concealed flusher
310-3010, 310-3020

Electronic concealed urinal flusher
310-2111, 310-2112, 310-2113
310-2121, 310-2122, 310-2123

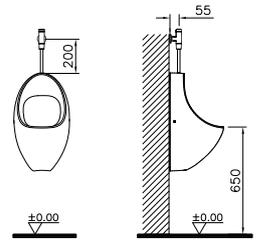

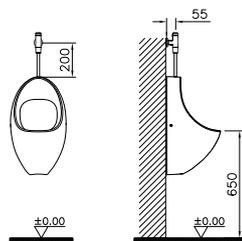

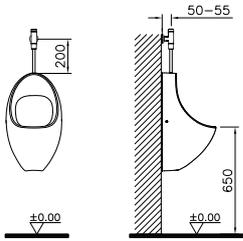

Electronic concealed urinal flusher
310-2131, 310-2132, 310-2133
310-2141, 310-2142, 310-2143

Pressurised concealed flusher
310-3310

Electronic exposed urinal flusher
310-2340

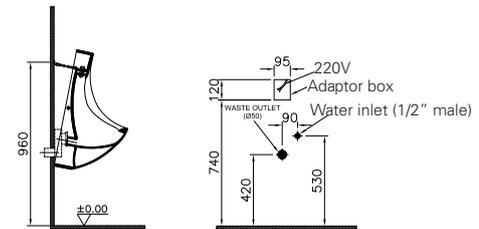

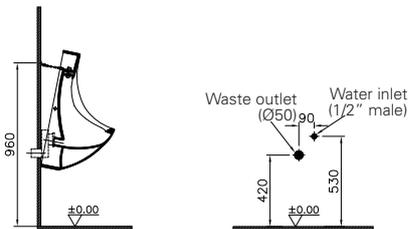

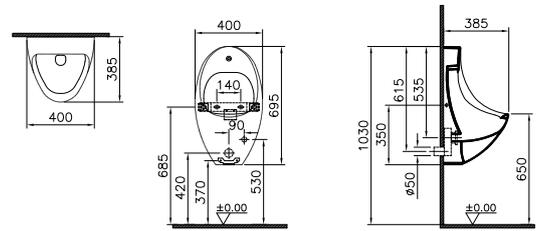

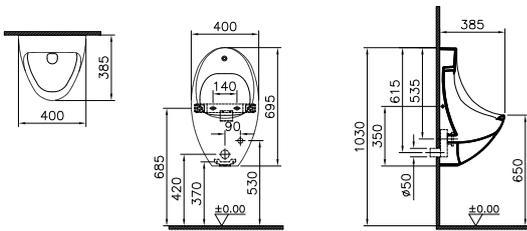

Flushers

Pressurised exposed urinal flusher
310-2521, 311-2521

Pressurised exposed flusher
310-2531, 311-2531

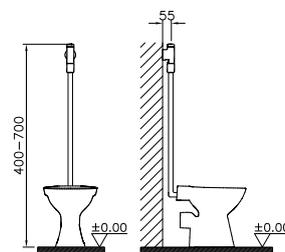

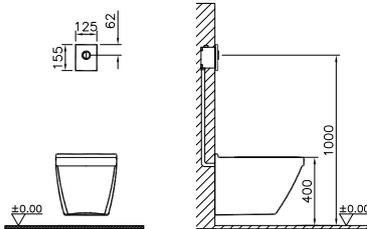

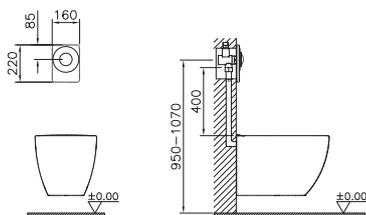

Pressurised exposed flusher
310-2532, 311-2532

Urinal with integrated electronic flusher
4106B003-5200

Urinal with integrated electronic flusher
4106B003-5291

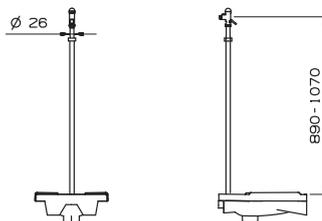

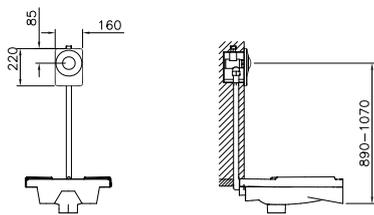

Flushers

Pressurised concealed
WC flusher
310-1511

Pressurised concealed flusher
310-3210

Pressurised exposed
WC flusher
310-1531

Pressurised concealed
squatting pan flusher
310-1521

Pressurised exposed
squatting pan flusher
310-1540

Special Equipments / Stainless Steel

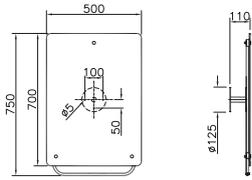

Product	Code	Description	EXW EURO/pcs	Qty/Pallet

- * For VitrA Compact Systems to be installed & its intervention, there is a need of empty space of 40 cm nearly or in front.
- * It is not recommended VitrA Compact System to be placed on U shaped wall. Please ask VitrA Bathtub responsables for guidance if you need installation to U shaped wall.
- * For system information & specifications please refer to VitrA Bathtub Compact Systems Guide Book.

! Before installing VitrA Compact Systems, make sure that:

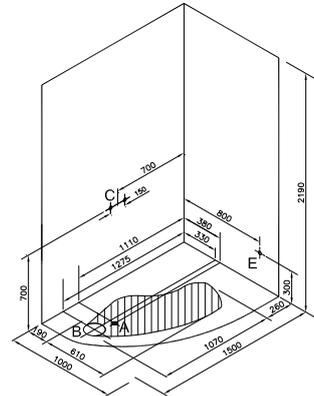

- * The ceiling is minimum 2,3 m high.
- * The water inlet level is minimum 80 cm high.
- * The water outlet pipe is of 50 mm.
- * The electrical system is running with 220 Volt (with earth connection).
- * The local water pressure is in between 3-6 bars.
- * The floor should be tiled of even.
- * The walls are straight and the installation corner is exactly 90'.

	135	135	Trio (pg; 447)
	120	90	Secret Zone (pg; 431); Notte (pg; 433); Zest (pg; 449); Roomy (pg; 452-453)
	90	90	Notte (pg; 434); Zest (pg; 450-451)

! Before installing the product make sure that;

- The ceiling is minimum 2,3 m high, for Zest it is 2,4 m high.
- The local water pressure is between 3-6 bars.

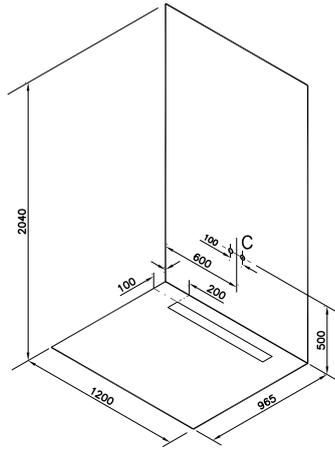

* The floor should be tiled of even.

* The walls are straight and the installation corner is exactly 90'.

* For built-in installations (flat and zero surface shower trays), a low floor application of 15 cm is required for the installation for the siphone and the depth of the shower tray.

* The assembly of the zero surface shower trays should be done at the same time with tiling. The water proof membrane should be placed below tiles.

Technical Info

General Information

- ★ Eczacıbaşı Building Materials Co. always keeps the rights to make any changes on the product.
- ★ Products listed in the price list are of white color. For product code of the products available in Pergamon color, last two digits of the 11 digit product code should be changed to 95. (ex: 50820001095 Optima 170x70 cm rectangular bathtub-Pergamon) Pricing of Pergamon color differs for body and whirlpool options. Please, increase the white color price of products with following amounts for Pergamon color prices (if available): For body bathtub and shower trays %8; for Aqua Soft Easy and Aqua Soft %2, for Aqua Maxi, Duo Soft, Duo Maxi, Air Relax and Aqua Nano %1.
- ★ Please check page 662-663 for VitrAhygiene application.
- ★ In case bath filler will be used for appropriate bathtub models, the drilling on product body can be done before the shipment if the code/model of the faucet is provided at CRM note at the time of order.
- ★ For faucets usage on bathtubs please check page 655-657. Application areas shown are for body bathtubs and may vary for whirlpools. Contact VitrA officers for such applications.
- ★ Since solid wooden items on products are of natural wood, color and texture may vary.
- ★ Complementary wooden items (panels, shower mattes, shower system, etc) should be installed in enclosed areas avoiding exposure to outside weather conditions. Other wise, the product shall become out of scope of guarantee.
- ★ Check product data sheets and technical documents for detailed information on installation.

Usage of Wooden Complementary Items

General warnings about usage of wooden complementary items

- Color and texture may vary since solid wooden parts of products are made of natural wood.
- Complementary wooden items (panel, mat, shower system etc.) should be installed in enclosed areas. Products intended for use at home or in enclosed areas should not be used in areas subject to outside weather conditions, under direct sunlight, rain, moisture etc, at gardens or in areas, washed with water, in order to preserve its lifetime. Otherwise, the product shall become out of scope of guarantee.
- Wet bath fibers left on product and the liquids leaking from soap and shampoo bottles may result in color changes on product.
- Do not use hydrochloric acid, abrasive/ powder detergent, soft soap and hard /scratching cleaning sponge for cleaning wooden items. Avoid contact with bleachers, organic solutions, paint removers acetone and other solvents.

Key notes about usage of wooden panels

- Wooden panels should not be left wet for a long time, it should be dried with cloth after each usage to ensure a better and longer lifespan.
- Bathroom floor should be cleaned by wiping to avoid contact of product with plenty of water.
- Wooden wipers are not recommended since wooden panel is varnished.
- Use of a soft cloth and glass cleaner in cleaning of wooden surface is adequate. Wipe the cloth in the direction of coating, not with circular movements.
- Installation of wooden panels should not be done at the same level with bathroom floor to avoid damaging of wooden panels from water accumulating on the floor during bathing or cleaning.
- Use of cabinet on wooden panel products should be recommended. It should be ensured that water splashed from the edges of bathtub, walls or shower heads during bathing is kept on the surface of cabinet glass and flowed into the product.
- You can refer to VitrA Bathtub Officers for removal of scratches appeared on the surface of wooden panel as a result of accident and stroke.

Considerations about usage of wooden shower mattes

- Wooden mat is made of natural iroko wood and iroko wood is among the most water resistant woods.
- As wooden mattes are natural materials, it is likely to release its own sap during usage.
- Since wooden mattes are suitable for raw use, they are supplied with no varnish or finish and should be cleaned with a soft cloth and warm water after each use. Otherwise, unmelted soap products, dirt and limewater create a thin layer on wooden base making it hard to clean up.
- In addition to the cleaning after each use, you can opt to use wooden surface cleaners recommended for varnish and finish-free surfaces. You can supply such wooden surface cleaners from DIY stores.
- Usage of surface cleaners are recommended at every 6 months and the maintenance should be completed by using teak oil. This application is crucial in case the wooden parts are subject to sunlight in the bathroom.

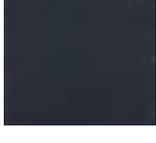

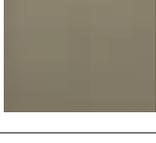

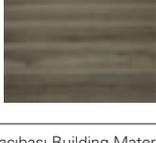

Extra Protection Against Microbes by Lucite Care

- > The main material "Lucite care" acrylic sheets are produced by Lucite International with Microban brand.
- > VitrA hygiene by Lucite Care promises continuous, safe and durable antimicrobial protection built-in during the manufacturing process to last for the useful life of the product.
- > It is the mark of the built-in antimicrobial quality and safety that is verified by testing laboratories.
- > Once built-in, active ingredients begin to neutralize the ability of microbes to function, grow and reproduce.
- > It provides an added level of cleanliness protection designed to work in conjunction with your normal cleaning practices.
- > It is tested on a regular basis to ensure conformance with the appropriate standards.
- > For "VitrAHygiene feature" the prices given below should be added to the list price of the product.
- > For order with VitrAHygiene feature the ninth digit of the product code, should be "1" (one) instead of "0" (zero).
